(A) Title and term. Ohio lottery commission game number twenty-three, "Rolling Cash 5™," shall be conducted at such times and for such periods as the commission may determine. For the purpose of this rule, "sales cycle" shall mean any such period beginning on the date when ticket sales are commenced and continuing through the date established by the director as the date on which sales agents are to make their final settlement in respect to such period.

(B) General design.

- (1) Game number twenty-three is a lottery game of the type generally known as a number match game.
- (2) Each ticket in game number twenty-three shall be imprinted with one set of five unique numbers from the set of integers one through thirty-nine inclusive, as determined by the choice of the ticket purchaser or the auto pick feature of the computer system and recorded on the ticket at the time of purchase.
- (3) At such times as determined by the director, drawings will be conducted at which five unique numbers shall be selected at random from the set of integers one through thirty-nine inclusive.

Holders of valid winning tickets for a given drawing bearing the numbers drawn in that drawing, in whole or in part, shall be entitled to a prize award in accordance with this rule.

(C) Price of tickets. The price of a ticket issued by the commission in game number twenty-three shall be one dollar for one play. The player may purchase up to the number of wagers per ticket, or multiples thereof, as designated by the director if a multi-wager is requested at the player's discretion in accordance with the number of game panels and inclusive drawings.

(D) Structure, nature and value of prize awards. Based upon the numbers drawn in each regular drawing for game number twenty-three, prizes shall be awarded to holders of valid tickets for that drawing as follows:

- (1) For each ticket bearing a selection which matches two, and only two, of the five integers drawn, the prize is one dollar.
- (2) For each ticket bearing a selection which matches three, and only three, of the five integers drawn, the prize is ten dollars.
- (3) For each ticket bearing a selection which matches four, and only four, of the five integers drawn, the prize is three hundred dollars.
- (4) For each ticket bearing a selection which matches all five integers drawn, the prize pool to be paid shall be equal to the amount designated by the director (hereinafter "jackpot"). The director or his designee shall designate and certify the amount of the jackpot for each drawing in writing prior to each drawing.

The director shall have discretion to change the prizes and percentages which represent the prize pools in each of the categories referred to in paragraphs (D)(1), (D)(2), (D)(3) and (D)(4) of this rule.

- (5) The minimum total jackpot amount in any jackpot for which at least one ticket bears a winning selection which matches five of the five integers drawn, as validated by the on-line computer system, shall be one hundred thousand dollars, and shall be divided equally among the winning selections if there is more than one winning selection. The director may set the jackpot at levels higher than the minimum amount in accordance with paragraph (D)(4) of this rule.

  - (8) When there are no winning tickets issued for the prize pool described in paragraph (D)(4) of this rule, the jackpot prize amount shall roll pari-mutuelly based on sales as set by the director or increase by a guaranteed amount established by the director, whichever jackpot prize amount is greater.

The Ohio lottery commission shall be free of any liability in connection with this paragraph.
  - (2) Each ticket issued in game number twenty-three shall have imprinted thereon at the time of purchase a control number, bar code data, or both, supplied by the commission. No prize shall be paid by the commission for any tickets without such control number or bar code data.
  - (3) All winning tickets in game number twenty-three are subject to validation by the on-line computer system under procedures established by the director before payment of any prize.
  - (4) In addition to, but not in limitation of, all other power and authority conferred on the director by the commission's rules, the director may declare a ticket in game number twenty-three void if it is stolen, not sold or deemed not sold in accordance with commission rules; if it is illegible, altered, or counterfeit; or if the ticket fails any of the validation tests or procedures established by the director.  
  
The commission's liability and responsibility for a ticket declared void, if any, is limited to refund of the retail sales price of the ticket.
  - (5) For the purpose of determining the number of winning wagers, division of the jackpot is contingent on the on-line computer system's determination of winning wagers sold and not by the number of winning tickets presented for payment.
